DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 8, 10, and 12, drawn to a filling material or fabric.

Group II, claims 13-19, drawn to a method for controlling house dust mites and bedmites using a polymeric article.

Claims 1-4, 6, 7, and 11 are non-statutory. Claims directed to "the use of" a recited composition or article should be rejected under 35 U.S.C 101 as non-statutory. Authority may be found in Ex Parte Dunki, 153 USPQ 678 and Clinical v. Brenner, 149 USPQ 475 (pg. 479, item 16).

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the special technical feature found in the groups does not make a contribution over the prior art as evidenced by U.S. Patent No. 5,208,016 to Ohmae et al. (see column 6, lines 4-36 and Table 3).
3. A telephone call was made to William Bak on December 20, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
